

## Murder Mystery

It was 9,00<sup>o</sup> clock in the morning, when the daughters of Mrs Adams were having breakfast. Suddenly they heard a window breaking. After they realized what had happened, they rushed into the living room and saw Mrs Adams laying on the floor, next to the TV. Mrs Adams daughter was in shock as she was pulled out of the room.

<sup>Their?</sup> Their butler Mrs Clares immediately rushed to call 911.

About 10 min. later the police arrived. They <sup>me</sup> immediately started to look around for evidence, but also started

questioning the family. The police found out what everyone was doing at the time of the murder. (Mrs)

Marrise or Mrs Adams' daughter was still eating breakfast with her sister Klare. Their father Mr Adams was in

in the kitchen, reading the news papers along their <sup>their</sup> cock Mr Jacob's who was cleaning the dirty dishes. Mrs

Clares was in the dining room, along the 2. sister as she was cleaning the table. The last person there was

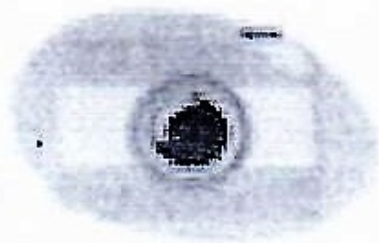

their <sup>Their</sup> aunt Mrs Penny. She was playing outside with

her kid. Along with that, the police also found some interesting stuff. Next to where the dead body was, they found

a kid's toy. It wasn't an ordinary <sup>a</sup> toy because it was

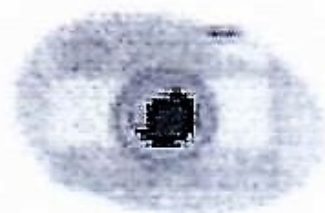

the killing weapon. After some more investigations, they found a lot more. There were also gloves near the garden, outside of the window, along an acrylic nail. The police was sure that the killer was a girl, but some of them thought that it was a little suspicious. 2 days passed after the murder, and the police was quick with the investigations. After some time the police asked Mr Jacob if he saw something unusual. He replied, that Mrs Adams left the kitchen for some time. Mr Jacob's also said that he noticed Mr Adams wearing gloves. Later that day, they called Mrs Adams's family to the station. The police found the killer. After 2-3 days they managed to figure it out. The murderer was Mrs Adams's husband. When he left the kitchen, he went through the back door where he hid the toy. He broke through the window and killed his wife really fast. He threw one of his gloves as he rushed out of the window. He hid by the window, when he took out an acrylic nail, and left it there. It was part of the plan, as he thought it wouldn't draw attention to him being a killer. That's why it took him a little longer to get to the living room, then the rest of the family. After

hearing this, the family and Mr Adams were in big shock. Mr Adams was left speechless as the police started to put his hands into handcuffs.

Marric started crying as they took Mr Adams and couldn't believe that her own father would kill his

wife. Because the police took the father and they're mother was killed, they had a chance to be taken to an orphanage, but they were taken by they're aunt Penny

They're father was sent to 45 years in prison, and they never saw they're father again
